Mr. Martyn:

Please accept this letter to be used as an introduction to other perspective customers about the relationship between Elsym Consulting and Owtsar Technologies.

Over the past year, Elsym Consulting has engaged Owtsar to develop software projects for Elsym, ranging from Java Server Pages, to Java / Swing applications to Microsoft VB.Net projects.

The quality of the work performed we consider to be outstanding along with its timeliness. All work was completed on time and within budget.

We will certainly provide project work to Owstar in the future and would highly recommend your company to any perspective clients considering using your company's excellent talents.

To our future accomplishments,

A handwritten signature in black ink, appearing to read "Len Simonis". The signature is fluid and cursive, with a large initial "L" and "S".
